

RBP Rabbit Brain Powder

Source: rabbit brains deprived of meninges, cerebellum and axial peduncle

Rabbit Age: 70-90 days

Powder processing: totally handwork

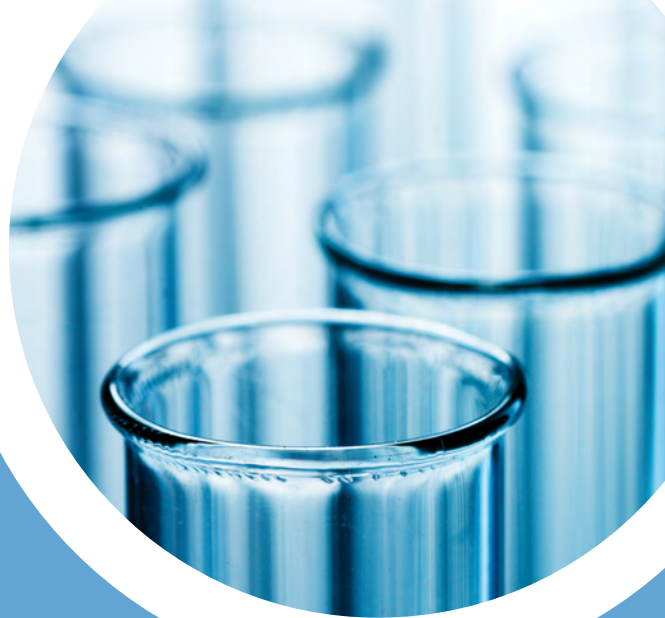

Form: soft homogeneous powder

Stability: not less than 18 months

Storage Temperature: -20° C

Suitable to the preparation of PT reagents with ISI close to 1

SRP Solid Rabbit Phospholipids

Source: rabbit brains deprived of meninges, cerebellum and axial peduncle

Rabbit Age: 70-90 days

Form: solid gel

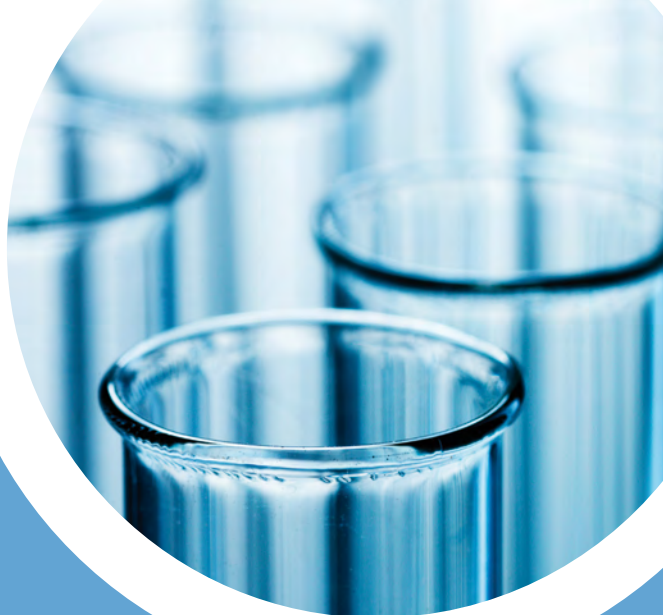

Cholesterol free

Inorganic Phosphorus Titre: > 25 mg/g

Stability: one year

Storage Temperature: -20° C

RCE Rabbit Cephalin Extract

Source: rabbit brains deprived of meninges, cerebellum and axial peduncle

Rabbit Age: 70-90 days

Form: frozen emulsion

Cholesterol free

Inorganic Phosphorus Titre: > 15 mg/dl

Stability: one year

Storage Temperature: -20° C
